Arts Project Australia's Programs of Support

Programs of Support assist in maintaining employment as an artist, furthering artist's visual art skills and building community inclusion goals by being part of a creative and supportive community.

Arts Project Australia operates for 48 weeks each year. Programs of Support are 24-week programs. Each Program of Support includes 22 face-to-face weeks and 2 non-face-to-face weeks.

Core Support - Specialised Supported Employment

Supports in Employment is for artists enrolled in the Weekday Professional Program. Artists receive employment support to further their art careers while working in the studio developing their art practice and work skills. This also includes gallery representation. The gallery promotes the work of artists through national and international exhibitions, folio viewings, artwork sales, art prizes, and awards.

Core Support - Non-face-to-face support

Non-face-to-face hours support essential daily planning, preparation and operation of the studio relating directly to each artist's individual art practice and Program of Support.

Core Support - Centre Capital costs

The Centre Capital Cost helps us to run and maintain our studio and building.

Establishment Fee for Participation

Establishment fees are a one-off fee that recognises the otherwise non-claimable costs that providers face in establishing arrangements with participants.
